## 1) Preliminary provisions

The present conditions cancel and replace any previous conditions and regulate the relationships between our Company and its Customers. All other documents issued by our Company, in particular catalogues, prospectuses, advertising material are for information only. By accepting an offer issued by our Company, the Customer accepts the present conditions. Consequently, the client states that he accepts expressly and without reserve these conditions, which have priority over all other documents issued by the Customer and all other agreements with the Customer, unless individual conditions have been agreed between the Parties. In the event that one of the Parties does not rely on any one of the present conditions at any given time, he shall not be deemed to have waived his right subsequently to rely on any of the said conditions whatsoever.

## 2) Order - quotation

Unless otherwise agreed, the offer shall be valid for one month from the date on which it is made. Orders placed and quotations requested by the Customer shall not be deemed to have been accepted by our Company until written agreement has been sent by the latter. The date, on which the contract comes into force, shall be the date printed on this agreement. No cancellation in whole or in part or any amendment in terms of quality or quantity of the order or quotation may be accepted without the written agreement of our Company. In the event that any cancellation or amendment is expressly accepted by our Company, this may give rise to an increase in the prices fixed and may cause fresh delays in delivery.

## 3) Delivery - Receipt

3.1 Delivery is by the postal service or by a haulage contractor at our premises. The deadlines for delivery and for the performance of the contract are provided for information purposes only depending on the supply and transport capacity of our Company, unless these fixed dates and times have been expressly agreed between our Company and the Customer. Unless such has been agreed, late delivery shall not give rise to damages or interest, withholding of payment or cancellation of any order or work in progress. Our Company is entitled to perform deliveries of work in whole or in part. If, for any reason whatsoever, our Company delivers, on one or several occasions, in whole or in part, the products, materials and equipment required for installation, these shall be in the care and custody of the Customer in accordance with the full force of the law.

## 3.2 Our products, irrespective of the

transport conditions, are transported at the risk of the Customer. Consequently, all risks, which may be suffered by the products with effect from the time of delivery, shall be borne by the Customer. The Customer must therefore take out appropriate insurance and bear the costs thereof. In all cases, it is the responsibility of the Customer in the event of non-conformity, visible defect, damage, default or delay to note these defects clearly and precisely on the haulage contractor's receipt document and to notify the haulage contractor by registered

letter with acknowledgement of receipt of its justified objection within two days, excluding public holidays, of receipt of the products. One copy of this statement must be sent to our Company within the same period. Claims regarding visible defects or the non-conformity of the services received as regards the products or the services ordered must be submitted in writing within two days of receipt of the services. In all cases the Customer shall be obliged to ensure receipt of the products or services. He must therefore be present at the premises and on the date of the delivery or receipt and must provide suitable handling equipment. Otherwise no claim may be entertained.

## 4) Liability

More particularly, our Company does not accept liability for any breaches of conditions by the Customer as regards the final Customer. Consequently, all costs resulting from such degradations, in particular costs of repair, manufacture, installation, re-installation, transport etc. shall be borne by the Customer.

He must allow our Company every facility for proceeding to confirmation of these defects or anomalies. No return shall be accepted for any reason whatsoever, without the prior written agreement of our Company. In the event that any defect or anomaly, for which the Customer submits evidence, arises from the fault of our Company, the obligation of the latter shall be restricted to replacing the defective quantities by similar products, excluding the costs of installation, re-installation and transport.

4.4 The Parties agree, having taken into account the nature of the products supplied, that when our Company is liable, for whatever reason whatsoever, redress shall apply solely to the direct, personal and certain damage incurred by the Customer to the express exclusion of any redress for any indirect and material damage, such as financial loss, damage to image, etc. The amount of damages and interest which our Company may be obliged to pay in the aforesaid conditions shall be in any case restricted to the amount of the order or quotation.

A claim regarding the quality of a product may not suspend payment unless proof of deficiency is submitted prior to the due date of the invoice and shall apply solely to the invoiced value of the products concerned.

5.3 In the case of late payment our Company may suspend all orders or work in progress, without prejudice to any other course of action. Penalties for arrears at a legal rate five times the legal interest rate shall be applied in the case where the sums due would be paid subsequent to the date of payment stated on the invoice.
